OVER THE YEARS

Commentaries based on cataloging over 300 sales and 51 years in numismatics - since 1928
(including THE LARGEST A.N.A. SALE EVER HELD-1977)

The "incredible market" is still continuing. Morgan and Peace Silver Dollars, particularly in the higher grades, continue setting new records - some rising from week to week. Trade Dollars and Liberty Seated Dollars are not too far behind with many now bringing more than double the prices of a year or so ago. The early Bust Dollars are strengthening and we believe will show a rise in value within the next few months. Inevitably, the steady demand is having its effect on the small available supply.

Lincoln Cents, Buffalo Nickels, Mercury Dimes, Liberty Standing Quarters and Liberty Walking Half Dollars continue setting new records in uncirculated condition, particularly those with full luster, full strike, etc. Indian Cents, Liberty Nickels, Dimes, Quarters and Half Dollars are not far behind. We believe the Liberty Seated series will show marked strength this fall.

Gold continues its spectacular rise in values occurring the past year. Many have doubled in value and appear headed for a repeat performance.

Large size currency in the higher grades continues setting new records. It seems that within a month or two after selling some of the more popular notes, we are trying to buy them at what we sold them for, or even higher prices.

The recent A.N.A. Convention in St. Louis was the most active ever. We thought the 1978 convention in Houston was the best, but St. Louis exceeded it in activity and new records.

Our new offices and equipment have increased our efficiency and we hope, our service.

9. Lots purchased by mail bidders cannot be returned without our written permission.
10. All claims for adjustments must be made in writing within 5 days following the receipt of the coins or invoice. Late remittance for purchases is cause for negating this privilege.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1	Barely recognizable as to type.
FAIR-2	Showing minor detail.
ABOUT GOOD-3 (AG-3)	Rims worn down into lettering but interior detail visible.
GOOD-4,6	All interior outlines visible.
VERY GOOD-8,10 (VG-8,10)	About 25% of the interior detail will be visible, date barely readable.
FINE-12,15	30% to 50% of the interior detail will show.
VERY FINE-20 through 35 (VF-20,25,30,35)	60% to 85% of the interior detail will show. 35 (Borderline EF).
EXTREMELY FINE-40,45 (EF-40,45)	90% of all interior details will show.
ALMOST UNCIRCULATED 50, 55 (AU-50, 55)	Bare traces of friction at the highest points. 55+ (Borderline Unc).
UNC-60 (MS-60)	Strictly Uncirculated with no rub or friction, i.e. NO WEAR
CHOICE BU-63 (MS-63)	A Choice Uncirculated specimen nicely struck and with nice luster.
GEM BU-65 (MS-65)	A Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions (marks).
SUPERB GEM BU-67 (MS-67)	If you look real hard with strong magnification you might find a faint flaw.
PERFECT GEM-70 (MS-70)	Once in a great while, a perfect coin is sold
PROOFS & SPECIMENS	Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-63, GEM Proof-65, SUPERB GEM Proof 67).

REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the only auction company that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

SUPERIOR TO MOST SEEN! Only 880 struck; truly the SCARCEST of all Morgan's (discounting the 12,000 business strikes that were probably included in the "melting pot" under the Pitman Act of 1918 and exported as ingots to India for their coinage). With the continuing phenomenal demand and rise in values for this series, we expect spirited bidding and a new AUCTION RECORD! We note the complete 1895 Proof Set in Auction '79 realized \$39,000, giving the dollar a proportionate value of over \$30,000. Now 3 months later in a rising market this popular rarity surely worth more.

PROVISIONAL U.S. MINT 1851-1853

From 1851 until 1853, the United States Government ran a provisional mint in San Francisco, in lieu of a branch mint whose propriety was being debated in Congress. During the first few months of operation, Augustus Humbert acted as the U.S. Assayer while Moffat & Co. issued the coins. Humbert affixed his name on all these coins until the formation of the U.S. Assay Office of Gold in 1852. From then, until its closing in 1853, with but one exception, the phrase United States Assay Office of Gold was substituted for Augustus Humbert United States Assayer of Gold California.

The coinage of this series is unique in numismatics; never before has a mint operated so much like a branch mint without being identified as such. These pieces should properly be included with the regular U.S. coinage, and as such, included in the U.S. type sets.

1851 AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA "CONDITION-CENSUS" \$50 LETTERED EDGE "SLUG"

1442. 1851 QUINTUPLE EAGLE or \$50 GOLD "SLUG", Rarer Type with LETTERED EDGE & 880 Thous. AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA around edge. UNITED STATES OF AMERICA inside circle with eagle in center. 880 THOUS. above. Beautiful target reverse, VERY RARE! Very little signs of wear but lightly brushed to give it a smooth appearance, only the minutest of handling marks--quite unusual for these large soft 2½ oz. coins. INCREDIBLY SHARP DETAIL ON ALL DEVICES WITH VIRTUALLY FULL FEATHERS ON EAGLE AND ALL LINES SEPARATED ON REVERSE. High among the TOP CONDITION specimens seen over the last half century!

After carefully examining this remarkable specimen under strong magnification we believe the eagle has had its normal relief sharpened by an expert engraver to give it the "fantastic sharpness".

The Beck Auction '79 BU specimen brought 51,000 after spirited bidding. Surely this Choice specimen worth half that amount.
